

Compasses

What you need to know when choosing a Compass:

- Mounting Options (i.e. Hanging, Panel Top, Panel Mount)
- TSO'd or Not TSO'd (for certified aircraft or not)
- Lighted or Unlighted
- Fluid-Filled or Vertical Card

In alphabetical order by Manufacturer

Airpath

Airpath compasses are the most popular general aviation magnetic compasses available. The range includes many units designed for specific aircraft and others with very general applications. Many of these types and lots of the spares are carried in our stock.
